

STATEMENT OF COMPLIANCE SEPTEMBER 2025

STATEMENT OF SOFTWARE UPDATE AND COMPLIANCE TELSCOPE Electronic Ballast Water Record Book

Telko AS, as the manufacturer of the TELSCOPE Electronic Ballast Water Record Book, hereby confirms the following for Ships equipped with TELSCOPE software version 1.25 or later.

1. The TELSCOPE Electronic Ballast Water Record Book was originally installed and commissioned in accordance with the requirements applicable at the time of installation, as documented in the original installation and commissioning records.
2. Following the issuance of DNV Type Approval Certificate TAA000032F Rev. 2, the TELSCOPE system software has been updated on all vessels to ensure compliance with the latest requirements of the International Convention for the Control and Management of Ships' Ballast Water and Sediments (BWMC), as reflected in MEPC.369(80), MEPC.372(80) MEPC.312(74), and IMO BWM.2/Circ.66/Rev.2 (Guidelines for the use of electronic record books).
3. This software update did not require any modifications to the physical installation or onboard equipment. The existing hardware and installation remain valid, and the update was carried out strictly in accordance with manufacturer procedures.
4. The updated system is compliant with the above IMO requirements and the latest DNV type approval.
5. For ships where RO/Class have issued DoC for MARPOL Record Books as outline in MEPC.312(74), no onboard verification is needed for RO/Class to issue DoC for Ballast Water Record Book as outlined in MEPC.372(80).

This statement is issued to complement the original installation and commissioning documentation, and to confirm ongoing compliance with the relevant IMO requirements and DNV type approval. It may be used as supporting documentation for Flag State and Port State Control inspections.

For further information, please contact Telko AS.
